

## Academic 2014

- Feb 8 Washington University Robotic Urology Symposium  
Las Vegas, NV  
Invited faculty  
Lectures: Fluorescence imaging during robotic partial nephrectomy  
Retroperitoneal robotic partial nephrectomy
- Feb 14-15 Leaping Forward: Minimally Invasive and Robotic Urology  
Lisbon, Portugal  
Invited faculty  
Lectures: Surgical approaches to daVinci partial nephrectomy  
Reducing warm ischemia time  
Live Surgery: Robotic retroperitoneal partial nephrectomy
- Feb 17-22 Visiting Professor, Ygeia Hospital  
Athens, Greece  
Live surgery: Robotic partial nephrectomy  
Robotic radical nephrectomy
- April 23 San Diego Urologic Society  
San Diego, CA  
Invited speaker  
Lecture: Surgical approaches to daVinci partial nephrectomy
- May 16-20 American Urological Association Annual Meeting  
Orlando, Florida  
Plenary Session Live Surgery, Moderator  
Robotic partial nephrectomy using the daVinci Xi  
Laparoscopic partial nephrectomy  
Society of Urologic Robotic Surgeons Symposium  
Lecture: Robotic RPLND for testicular cancer  
Post-graduate course faculty  
Lecture: Transperitoneal robotic partial nephrectomy: position, trocars, docking, ultrasound, and vascular control.
- May 27-30 Challenges in Laparoscopic and Robotic Surgery  
Barcelona, Spain  
Live Surgery: Robotic retroperitoneal partial nephrectomy
- July 11-14 PLA Minimally Invasive Surgery Symposium on Urology  
Beijing, China  
Invited Faculty  
Lecture: Surgical approaches for daVinci partial nephrectomy  
Live surgery: Robotic retroperitoneal partial nephrectomy

- July 15-16 Visiting Surgeon, Xijing Hospital  
Xian, China  
Lecture: Surgical approaches to robotic partial nephrectomy  
Live surgeries: Robotic transperitoneal partial nephrectomy  
Robotic retroperitoneal partial nephrectomy
- July 17 Zhongshan Hospital, Department of Urology  
Shanghai, China  
Invited Lecturer: Robotic applications in urology: prostate to kidney  
  
Renji Hospital, Department of Urology  
Shanghai, China  
Invited Lecturer: Robotic partial nephrectomy for complex renal masses
- July 18-91 Shanghai Ruijin Hospital  
Shanghai, China  
Invited Lecturer: Retroperitoneal robotic partial nephrectomy
- Sept 3-7 32<sup>nd</sup> Meeting of the World Congress of Endourology  
Taipei, Taiwan  
Faculty  
Lectures: New technologies for robotic partial nephrectomy  
Vascular control during robotic partial nephrectomy
- Sept 19-20 4<sup>th</sup> Annual Pacific Northwest Urology Robotics Symposium  
Seattle Science Foundation  
Course Director  
Live Surgeries: Robotic retroperitoneal robotic partial nephrectomy  
Transperitoneal robotic partial nephrectomy  
Robotic radical prostatectomy with extended pelvic lymph node dissection
- Sept 26-27 Robotic Partial Nephrectomy: Live Webcast Case & Expert Tips and  
Tricks. Ohio Methodist Hospital, Ohio Health  
Columbus, Ohio  
Invited faculty: Robotic partial nephrectomy for complex renal masses
- Oct 23 AUA Consensus Conference on Small Renal Masses  
USC, Los Angeles, CA  
Lecture: Defining Complications of Surgery
- Nov 7-8 Chinese University of Hong Kong, Urology Symposium 2014  
Hong Kong, China  
Key Note Speaker  
Lectures: Robotic upper tract surgery: Is it the gold standard  
The advantages of the retroperitoneal approach for robotic surgery  
Live surgery: Retroperitoneal robotic partial nephrectomy

Dec 5-6

Northwest Urologic Society Annual Meeting

Portland, OR

Presentations: Robotic Pyelolithotomy for renal calculi

Robotic partial nephrectomy for T1 and T2 renal masses

Robotic RPLND for testicular cancer

Matched paired analysis of transperitoneal vs. retroperitoneal partial nephrectomy-First place for non-academic institution

MD, Phoenix, AZ
